

Riva del Garda, Italy

October 4-6, 2012

Internet as Innovation Eco-System Summit and Exhibition 2012

where innovation and internet meet

The premier European innovation event of 2012, in one of Italy's most captivating locations. Great minds from around Europe will convene to explore, discuss and advance the idea of the **Internet as an innovation accelerator**. Policy leaders, business icons, students and brilliant academics will explain and demonstrate those technologies that promise to enhance socio-economic innovation and growth in Europe. **This Summit is part of a unique innovation process** that starts virtually on the web and culminates at the event.

You will not want to miss all these opportunities:

- Student Competitions
- SME Competitions
- Engaging Expert Panels
- Hands on Workshops
- Elevator Pitch Competition
- Exhibitor space
- Prestigious Keynote Speakers
- Awards

Topics will cover:

Future Internet Architecture * Security & Privacy * **Internet of Things** * Applications & Business Models * **Convergence of Future Internet of Things with Cloud** * Future Internet Experimentation * **Smart City Infrastructure** * Standardization * **Reliability and Energy Efficiency**

Register FREE before July 31st at
